Agenda Item B-19, DISCUSS the April 2018 GO Public Schools Fresno Choosing Our Future Report and ACCEPT the Recommendations
The Board was in receipt of the April 2018 GO Public Schools Fresno Choosing Our Future Report. Go Public Schools Fresno is requested the Board to consider accepting the recommendations included in the report.

The Choosing Our Future Report was first written in 2005 to help provide guidance to the district during leadership transition. Many improvements have been made in finances, operations and student outcomes at Fresno Unified since the initial report. GO Public Schools Fresno engaged more than 700 parents, teachers, principals and community members in the creation of the next iteration of Choosing Our Future (2018) to set a bold vision for our schools, to provide robust and transparent accountability, and to create policy recommendations that help move the district toward this vision, including:

- Redefining what success looks like in the 21st century and commit to every child graduating prepared to succeed.
- Empowering students and educators with individualized data to ensure every child is making adequate annual progress toward graduating prepared to succeed.
- Creating an innovation zone to design and support transformational school models.

Members of the public who spoke on Agenda Item B-19:
Tish Rice – Deeply concerned that the district is considering the recommendations in this agenda item. Concerns that the district is set to approve resources and positions to something that is vague and has not been vetted by all stakeholders. Questioned the process and possible motives behind this possible action.
**Jon Bath** – The district has an unfortunate pattern on relying on outside reports to steer major policy changes. Did not hear anything new in the report and didn’t hear a plan.

**Manual Bonilla** – Many concerns in the report. Many questions like how do we address the inequity of the innovation zones, what are the formulas used to fund these zones, what is the teacher students impact in schedules of the zones, who approves the curriculum, and are there conflict of interests that need to be addressed. Passing and rushing into these recommendations is a step backwards especially with the recent collaborative rhetoric from the district. Additionally, this undermines the Superintendents Leadership. The board should not be looking for leadership from an outside agency. Request that all stakeholders be involved in the process.

**Lorena Moreno** – Encouraged the board to accept the recommendations. Has seen the suffering in her community and has looked outside her neighborhood for services. Currently drives one child 30 minutes to school to get a better education. We need more innovated schools in our neighborhood schools.

**Rosemary Soto** – Requested that the board accept the recommendations in the Choosing Our Future Report. It is important that we work in a collaborative way with parents, teachers and community leaders.

**Michele Darchuck** – Supports the Choosing Our Future Report and urged the board to accept the recommendations.
